**Global PPP Platform**

- Need for sector improvement
- Certification & standards
- Social issues (feed)
- Deforestation (mangroves)
- Food safety (antibiotics)

**FIT Fund**  
Farmers In Transition

**Production support:**

- Co-fund up to 40%
- Measurable change

**Zone management**  
Improved practices

**Data-driven management**  
Risk mitigation

**Sub-Saharan Africa**  
Sector growth

**Landscape level**  
Zonal approach

- Water quality
- Disease control
- Public private governance

**Feed ingredients**  
Traceability

- Social issues
- Best practices
- Risk areas

**Health management**  
Data/production tool

- Epidemiology
- Improve practices
- Improved efficiency

**Investment opportunities**  
Sector convening

- Supply chain development
- Input supply
- Commercial production

**Result areas**

- ✓ Responsible sourcing guidelines
- ✓ Responsible aquaculture and aqua feeds production
- ✓ Improved water quality
- ✓ Responsible use of (agro)chemicals
- ✓ Reduced occurrence & impact of diseases
- ✓ Improved market access
- ✓ Improved production efficiency
- ✓ Improved food security
