

Terms of Reference - Liberia Landscape Program

Facilitating Communities in Senjeh & Klay Districts, Bomi County

To complete the Customary Land formalization process

September 25, 2020

1. Introduction

IDH Sustainable Trade Initiative (“IDH”) accelerates and up-scales sustainable trade by building impact-oriented coalitions of front running companies, civil society, governments, knowledge institutions and other stakeholders in several commodity sectors. We convene the interests, strengths and knowledge of public and private partners in sustainability commodity programs that aim to mainstream international and domestic commodity markets. We jointly formulate strategic intervention plans with public and private partners and we co-invest with partners in activities that generate public goods.

On basis of this Terms of Reference IDH aims to select a party to facilitate communities in Garwula District in Grand Cape Mount County to formalize their Customary Land rights. This Terms of Reference is for a consultancy firm or non-governmental organization (NGO) to support communities in the district to complete the Customary Land formalization process.

In 2019, IDH supported 6 communities in Foya Statutory District to formalize their Customary Land rights. Currently, additional communities in 11 Administrative Districts in Sinoe and 3 Administrative Districts in Lofa are being supported to also formalize their Customary Land rights. The successful applicant is expected to draw on the lessons from these earlier efforts, by reaching out to and actively engaging with the Service Providers involved in these activities to build on their experiences.

2. Objectives

The Overall Objective of this assignment is that the land and natural resource tenure rights of communities in Senjeh and Klay Districts in Bomi County are secured and strengthened. The Specific Objective is that the target communities in Senjeh and Klay Districts have formalized their land claims according to the requirements of the Land Rights Law of 2018.

Senjeh District covers an estimated **53,482 hectares** of land and a **population of 30,027** distributed across 4 Clans. Klay District covers an estimated **60,846 hectares** of land and a **population of 23,397** distributed across 4 Clans. The rural parts of the districts are forested and the main livelihood activity is subsistence farming. Some of the Clans in the district have established land management committees. The successful applicant will be deployed to support the 8 Clans to complete the Customary Land formalization process.

The assignment will:

(1) Deliver an **inception report that includes a social and political (administrative) profile of each district, detailing relevant specific information about the 8 Clans that make up the target Districts**. The profile should include as much specifics as possible and specifically include information about: (a) communities that decide to complete the Customary Land formalization process – separating those that are receiving support or have received some support in the past from those that have not started the process; (b) communities that formalized their land rights in the past

and have deeds; (c) the location of each community relative to MANO oil palm concession; and (d) communities with a CFMA, if any. The profiles should also include an overview of the relationship each community has with private sector actors within their area and how those relationships could impact the Customary Land formalization process. Finally, the inception report should include an updated work plan that takes into account the information generated during the profiling.

(2) **Support all the communities that decide to complete the Customary Land formalization process to do so.** This support will include facilitating each community to (a) complete the Community Self Identification process including validation by the Liberia Land Authority (LLA); (b) develop their community by-laws, establish their land governance bodies and register them each as a legal entity; (c) submit documentation of the governance formation process to the LLA and secure their feedback prior to finalization; (d) identify and map their land claims, taking into account existing land rights such as Government Land, Concession and Private Land, and harmonize their boundaries with neighboring communities; and (e) submit documentation of mapping and boundary harmonization process to the LLA and facilitate the LLA to conduct the Confirmatory Survey (if the LLA has the required regulation in place by then).

(3) **Collaborate with IDH to prepare and implement a learning and exchange events** at the completion of the project to share updates from the field, lessons learnt from facilitating the Customary Land formalization activities, tools and guides being used in the field, etc. with stakeholders at the county levels.

3. Deliverables

The specific deliverables of this assignment will be:

Deliverables of project
An inception report as per the description above. The report should include an updated work plan based on its findings and conclusions.
Community Self Identification and governance formation portfolio for each community. The portfolio should include documentation of the CSI process as submitted to the LLA for validation and LLA’s validation report and certificate.
Governance formation portfolio for each community. This should include the community by-laws and directory of CLDMCs, quarterly updates summarizing progress and documentation of key events including reports of training events for the community bodies established to support the Customary Land formalization process and Community Assemblies. The portfolio should also include feedback from the LLA on the Community by-laws.
Maps depicting each community’s Customary Land. This should include one participatory sketch map of each community developed and validated with the community and one digital map of each community. Both maps should illustrate where boundary/ boundaries remain in disputes.
Memorandums of Understanding setting out boundary agreement with each neighboring.
Documented lessons learnt and, tools, guides, and presentations used for community education and sensitization.

4. Proposal and budget guidelines

Through their proposals, applicants are expected to demonstrate a good understanding of the Customary Land formalization process and a willingness to embed its team in Grand Cape Mount County during this assignment.

The cost of experience sharing and lesson learnt events co-organized with IDH, except those that are included in the proposal and targeted for communities involved in the assignment, will be funded by IDH. These costs should NOT be included in the budget. These costs are excluded to ensure that the resources or the budget is primarily applied to work in the field.
